

WEEKLY UPDATE

12/31/20

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility and notification that we recently received confirmation that one resident tested positive for COVID-19. That brings our total number of cases to 4 residents and 5 staff members that have tested positive for the virus. The resident in question is no longer at our facility. All staff and residents have been tested and all test results were negative. Essential Care Givers can choose to continue visits if they are up to date on all requirements.

Our next scheduled test for all employees and residents will be Tuesday, January 5th. As always, we will keep you informed of the outcome and do not hesitate to contact your Guardian Angel or the facility should you have any further questions.

Currently, Walgreens has our facility slated for receiving the COVID-19 vaccine the week of January 11th, 2020. More information will be shared once we have it, just wanted everyone to have an anticipated date, as things due change depending on availability.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (737) 241-0800.

Sincerely,

Kristy Cooper
